mongodb , node.js

Soft Skills

Communication , Problem Solving
, Adaptability , Time Management

🌐 Objective

Motivated and detail-oriented Computer Science graduate with a solid foundation in programming, web development, and problem-solving skills. Seeking an entry-level position to apply my technical abilities, contribute effectively to team projects, and grow within a dynamic organization. Eager to learn and adapt to new technologies while delivering valuable support to achieve company goals.

📁 Projects

Portfolio Website 🔗

I crafted my personal website to showcase my projects and skills creatively. Using React.js and Tailwind CSS, I ensured a sleek and responsive design. Employing Git for version control. The site is hosted on Vercel, offering a seamless online experience for visitors..

Movie catalouge 🔗

Developed a user-friendly website offering a comprehensive movie overview, featuring ratings and descriptions. Utilized HTML, CSS, and JavaScript to create an interactive interface. Movie data is dynamically fetched from the TMDB API, ensuring real-time updates and enhancing the overall user experience. This project showcases my skills in web development and a practical application of API integration.
